## **August Living Room: Supportive Care**

Don't miss this month's Living Room on supportive care. Our guest speaker, Dr. Francis Arena, MD FACP, Clinical Associate Professor, Medical Director NYU Langone Medical Center New York, is an expert in the field of supportive care. Dr. Arena will discuss the importance of talking to your doctor about treatments to prevent, control, or relieve complications and side effects and how these treatments can improve a patient's comfort and quality of life.

Find out more about the right questions to ask your doctor and the tools you need to keep ahead of your symptoms or side effects.

For those who are new to the living room check out what it is all about [here](#).

Join the group in person or via [YouTube](#), share your stories, ask each other questions, or just listen to others talk about their experiences.

**August 15, 2017**

**5:30 pm to 7:30 pm**

**1100 Industrial Rd., Suite #1 San Carlos, CA, 94070**

**or**
